

<u>STAFF INFORMATION FORM</u>	
Name:	Dweipayan Goswami (PhD, NET)
Department:	BIOCHEMISTRY-BIOTECHNOLOGY
Teaching/Non-Teaching:	<input checked="" type="checkbox"/> Teaching <input type="checkbox"/> Non-Teaching
Designation:	LECTURER
E-mail:	dweipayan.goswami@sxca.edu.in
Passport Size Photo	
<p>Please provide a brief description about teaching, specialization and research in the below given space. (For Teaching Staff Only)</p>	
<p><u>Research Interest:</u> (1) Understanding the dynamics of plant microbe interactions. (2) Microbial enzymes and secondary metabolites.</p> <p><u>Teaching Philosophy:</u> I started learning the details of the subjects included in biological sciences during early days of my graduation studies. I devote sincere gratitude to all the teachers who imbibed me with the knowledge in the subject of Biochemistry, Biotechnology, Immunology, Microbiology, Cell biology, Molecular Biology and Bioinformatics. When I learnt these subjects, I felt that the mass populace of the world did not get the opportunity to know zones of biological science. There are only few privileged people who gets opportunity to interact with these subjects and enjoy its true essence. In light of this idea I feel excited educating these subjects to students. I would be extremely satisfied if my lessons influence students to feel the same or better. At last, I trust that the age of students ought to be superior to teachers for the science to gain ground.</p>
