Orientation Program:

Student orientation Programme plays an important role in a student's transition to a college life. Orientation programmes are aimed at familiarizing the students to an unknown campus environment, its faculties and infrastructure. In the beginning of the first year, students need to be made acquainted to their surroundings in the campus. The main purpose of a good orientation session in a college is to bridge the gap between the professors and the students, ensuring a smooth communication between the two. Student Orientation is a warm-up session for students before they are ready to hit the ground for their final performance, for a successful career.

Due to pandemic, the orientation 2020-21 was online. The students assisted in recordings of the event in "Gurjarvani" studio. The program was compiled and edited by these students which was then aired on you tube.
